Electrical Components for 2003 Toyota 4Runner | nashuatoyota

What you've just done is converted the headlight switch from a weak power source to a simple trigger for the relay. Now, connect a 10-gauge wire to #30 on the relay and with a 20-amp inline fuse, run that to the main charging post on the alternator-the relay will always be "hot" but no current will flow unless you pull the headlight switch on.
