## Introduction to Biostatistics Exam 1 - Practice Exam ...

A is the correct answer. Remember, in order to calculate the median, you must first order the values in the sample from lowest to highest. Doing so yields: 110 116 124 132 168 This sample is of size 5, and odd number, so the middle value of 124 is the sample median. 5. C is the correct answer. Here the sample mean,  $X = 64$  inches, and the SD = 5 ...
