The data collection should be developed with a team, but it could include a task analysis of each step, a yes or no sheet saying if the individual did the step independently or tracking the length of time the shower took.

Teaching Independent Showering - Autism and Behavior Resources

Let's take a closer look at what's involved in completing a task analysis. I always find it best to illustrate these types of processes with an example. With that in mind, let's say you work at a midsize media organization and your boss has asked you to complete a task analysis on how the company's social media manager does her job.
